

UNIFORMED PROTECTIVE SERVICES

The WORLD PROTECTION GROUP, Inc.®

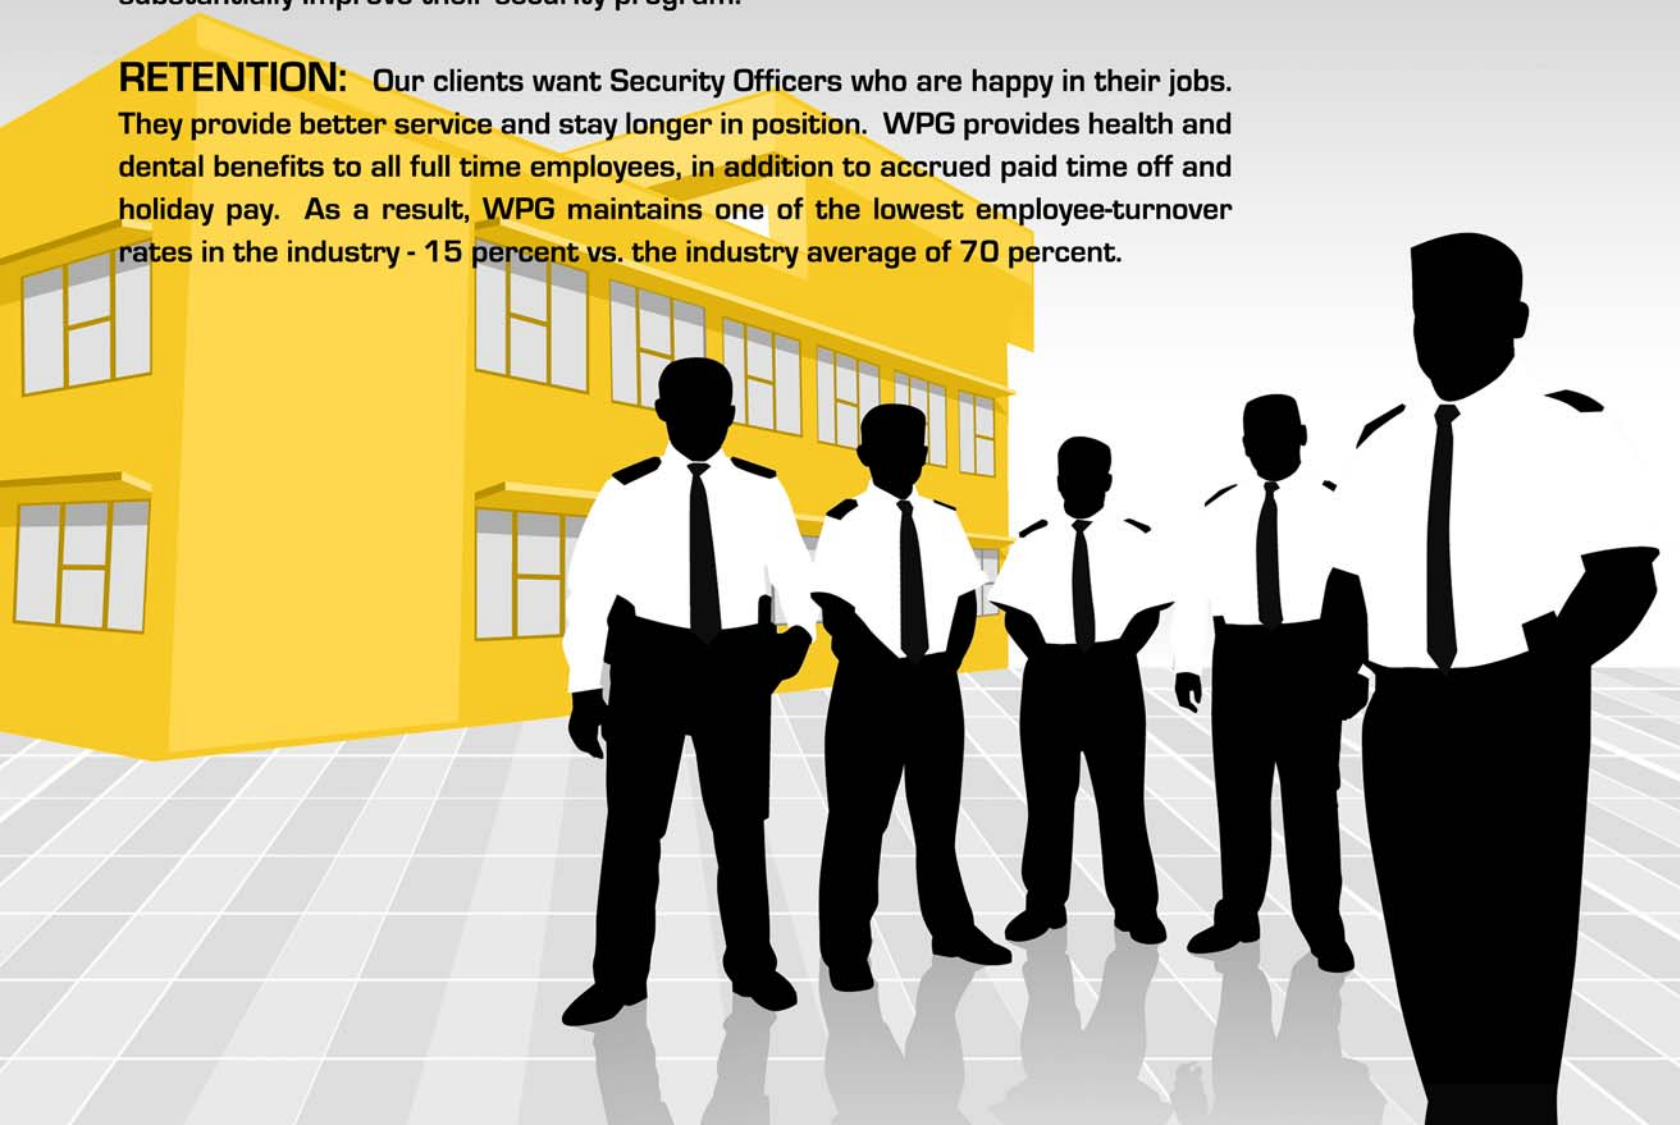

"We Protect Your World"

The World Protection Group, Inc.® – a full-service, international firm that provides the highest level of uniformed protective services – enhances clients' security, public image, and safety of employees, customers, facilities, and assets. The firm's focus on hiring and training allows The World Protection Group [WPG] to provide the highest quality security in the industry.

POSITIVE FIRST IMPRESSION: WPG is conscious of your company's brand and knows that it must be represented well, particularly in the area of security. All officers are trained in public relations, image management, conduct, attitude, and appearance.

PROACTIVE PARTNER: Our clients demand Security Officers who proactively avert any potential emergency that may occur on their premises. When incidents do occur, Security Officers are in many ways the first responders. The WPG takes that role very seriously and partners with clients to substantially improve their security program.

RETENTION: Our clients want Security Officers who are happy in their jobs. They provide better service and stay longer in position. WPG provides health and dental benefits to all full time employees, in addition to accrued paid time off and holiday pay. As a result, WPG maintains one of the lowest employee-turnover rates in the industry - 15 percent vs. the industry average of 70 percent.

TRAINING: WPG invests in employees with initial training and eight hours of annual continuing education. These sessions provide Security Officers the opportunity to improve their skill set to the benefit of the client. It also builds morale, curbs complacency, and widens Officers' career path within the firm.

MANAGEMENT: Highly experienced operations supervision and management distinguish WPG. Managers infuse best practices from the industry in our processes and ensure consistency of service across clients and client sites. WPG ensures strong relationships with the Client via our account management process where regular meetings and open communication allows all issues to be dealt with in a timely manner to the satisfaction of the client.

WPG Officers are trained in the following areas:

Jurisdictional Requirements and Definition • Constitutional Law • Criminal Law • Civil Law • Use of Force • Arrest Authority • Communication Process • Conflict Management • Crisis Intervention • Report Writing • Bomb Recognition and Incident Management • Fire Safety and Hazardous Materials • Officer and Personal Security • Standards and Professionalism • American Red Cross CPR and First Aid
